SPECIFICATIONS & FEATURES

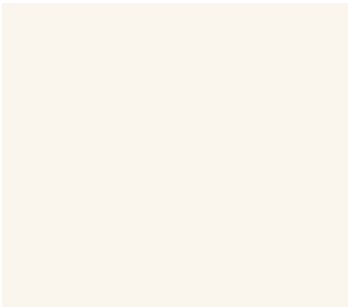

Optional Underbed Storage Drawers

Optional under-bed drawers can be installed on either side of the bed. This creates efficient space utilization and reduces the need for additional furniture.

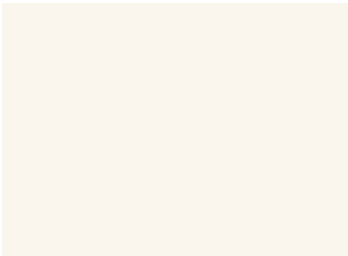

Bed Hook And Rail Connection

The hook and eye construction ensures added safety and security, reducing the likelihood of the bed rails becoming loose or detached during use. This stability is crucial for supporting the weight of the mattress and the occupants. The simplicity of the hook and eye design facilitates easy assembly.

Fully Slatted Platform

The fully welded slatted design ensures that the mattress receives consistent and uniform support across its entire surface. This helps in distributing the weight evenly, preventing sagging or uneven wear of the mattress over time. The slatted structure also allows for increased ventilation and airflow around the mattress. This helps regulate temperature and moisture, reducing the likelihood of mold, mildew, or unpleasant odors.

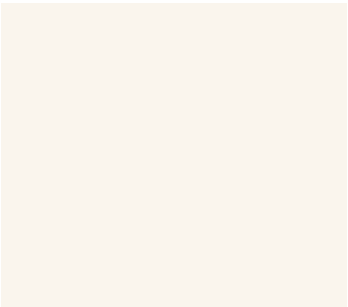

Platform Support Legs

Three support legs along the middle provide additional support and feature adjustable bottoms to attain the perfect stability.

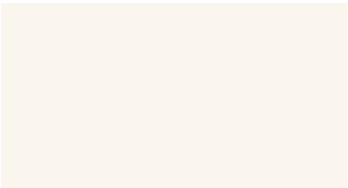

Box Spring

Beds do not require a box spring offering advantages in cost-effectiveness, modern aesthetics, flexibility in mattress options, and enhanced storage possibilities.

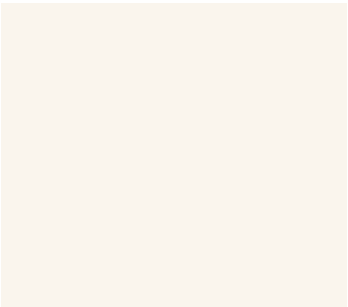

Side Mounted Ball-Bearing Glides

Drawers open smoothly with side mounted ball-bearing glides.

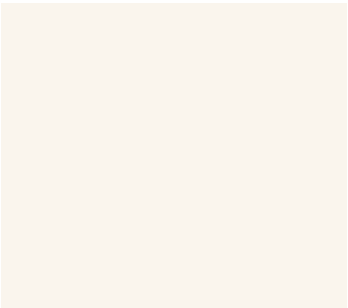

Drawer Features

3/4 extension drawer glides with positive drawer stops.

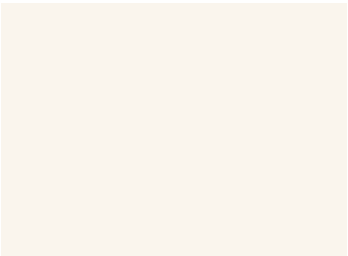

Recessed Finger-Pull Handles

Unlike conventional handles, this integrated design ensures maintenance-free functionality, eliminating the risk of breakage or loosening over time.

Powder Coated Black Finish with Silver Accents

Case good pieces and beds feature a powder-coated finish, to safeguard against corrosion, fading, and everyday wear and tear, all while being environmentally friendly.

Smooth Edges

Smooth edges contribute to enhanced safety, reduces the risk of accidental bumps, scratches, or injuries.

Floor Glides

Floor glide included, providing perfect stability and floor protection.

Leg Elevation

Slight leg elevation allows for easy access and cleaning.

4 Shelf Cabinet / Wardrobe Features

3 Heavy duty hinges per door, clothes hang bar, louvers for air circulation, pad lock latch.

Safety

Lead-Free, meets consumer product safety commission.

TERENCE SERIES

TERENCE SERIES

Are you in search of residential, commercial-grade steel furniture, built to withstand years of rigorous use in your facility's challenging environment?

The design of this bedroom set offers industrial strength blended with unique finishing. Each item is made completely out of heavy-duty steel materials but is brushed with the rich and warm hue of Thailand teak wood, adding a look of residential coziness to the set. The combination of sturdy iron and the distinctive color of teak wood creates a resilient & visually striking piece that will bring a homey feel to any space.

SPECIFICATIONS & FEATURES

Floor Glides

Floor Glide Levelers are height adjustable, providing perfect stability and floor protection.

Leg Elevation

Case-goods units offer leg elevation, for easy access cleaning and efficient floor maintenance.

Side Roller Glides

Side Roller Glides ensure drawers open smoothly. Thereby, minimizing friction, noise and wear and tear, resulting in a longer lifespan for the drawers.

Smooth Edges

Smooth Edges contribute to enhanced safety, reduces the risk of accidental bumps, scratches, or injuries.

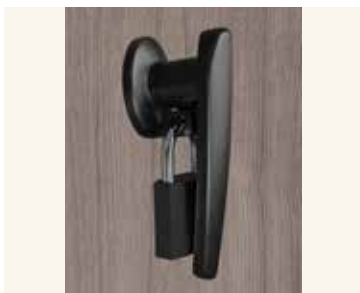

Recessed Finger Pull Handles

Unlike conventional handles, this integrated design ensures maintenance-free functionality, eliminating the risk of breakage or loosening over time.

Powder Coated Finish with Hue of Thailand Teak Fronts

Case good pieces and beds feature a powder-coated finish, to safeguard against corrosion, fading, and everyday wear and tear, all while being environmentally friendly.

Black Polished Protruding Pad Lock Latch Handles

A padlock latch system where everyone can add their own lock offers benefits in terms of individual security.

Bed Hook And Eye

The hook and eye construction ensures added safety and security, reducing the likelihood of the bed rails becoming loose or detached during use. This stability is crucial for supporting the weight of the mattress and the occupants. The simplicity of the hook and eye design facilitates easy assembly.

Optional Underbed Storage Drawers

Optional underbed drawers can be installed on either side of the bed. This creates efficient space utilization and reduces the need for additional furniture.

Fully Slatted Welded Metal Platform

The fully slatted design ensures that the mattress receives consistent and uniform support across its entire surface. This helps in distributing the weight evenly, preventing sagging or uneven wear of the mattress over time. The slatted structure also allows for increased ventilation and airflow around the mattress. This helps regulate temperature and moisture, reducing the likelihood of mold, mildew, or unpleasant odors.

Box Spring

Beds do not require a box spring offering advantages in cost-effectiveness, modern aesthetics, flexibility in mattress options, and enhanced storage possibilities.

Platform Support Legs

Three support legs along the middle provide additional support and feature adjustable bottoms to attain the perfect stability.

Bed Leg Protection

The four sturdy bed legs are each capped with plastic tips, protecting your floors from scratches and scuffs.

WALDEN COLLECTION

Why Choose TAF's Case Goods?

Our furniture is crafted with high-quality materials and construction techniques to ensure it can endure the demands of high-traffic areas and rigorous use in commercial settings.

While our furniture is built to commercial-grade standards, it doesn't compromise on style. Our designs cater to the aesthetic preferences and comfort expectations of individuals, making them perfect for both home and commercial environments.

Our case goods are designed to be highly functional, offering ample storage solutions and practical features that meet the needs of diverse environments, from hospitality to healthcare to residential settings.

SPECIFICATIONS & FEATURES

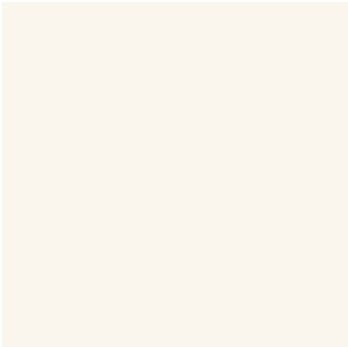

Floor Glides

Floor Glides provide perfect stability and floor protection.

Side Mounted Ball-Bearing Glides

Side Mounted Ball Bearing Glides ensure drawers open smoothly. Thereby, minimizing friction, noise and wear and tear, resulting in a longer lifespan for the drawers.

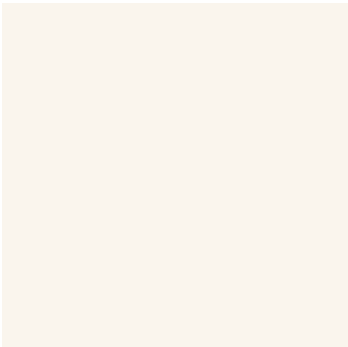

Smooth Edges

Smooth Edges contribute to enhanced safety, reducing the risk of accidental bumps, scratches, or injuries.

Optional Under Bed Storage Drawers

3 Drawer optional under bed unit can be installed on either side of the bed. This creates efficient space utilization and reduces the need for additional furniture. Drawer unit is independent of bed.

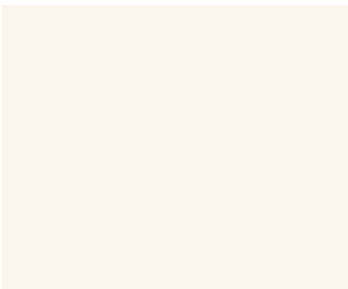

Drawer Construction:

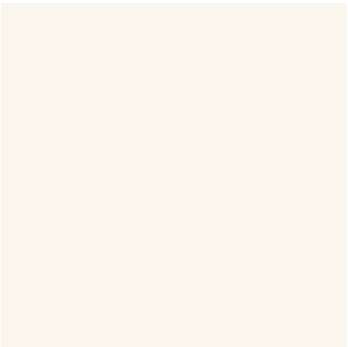

Box construction with double drawer fronts, English Dovetail Joinery, and corner blocked.

Bed Hook Construction

The hook construction ensures added safety and security, reducing the likelihood of the bed rails becoming loose or detached during use. This stability is crucial for supporting the weight of the mattress and the occupants. The simplicity of the hook construction design facilitates easy assembly.

SPECIFICATIONS & FEATURES

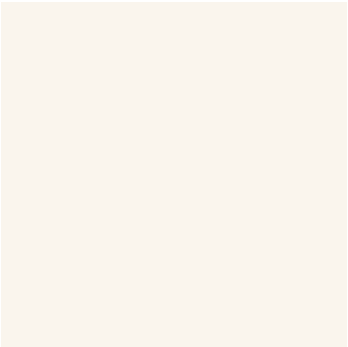

Grade

Commercial

Pull Handles

Recessed Finger-Pull Handles.

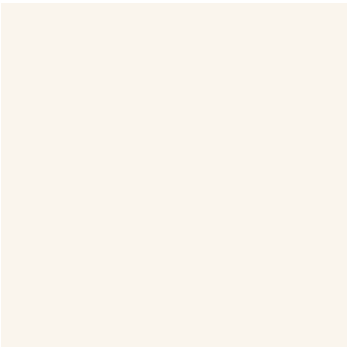

Material and Fabrication

Natural Oak Hardwood

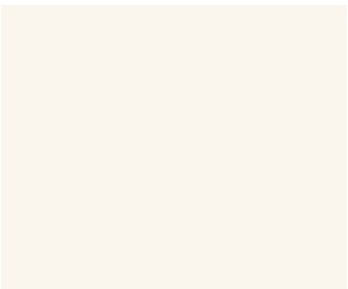

Case Construction:

Mortise and Tenon Joinery

Fully Slatted Wooden Platform

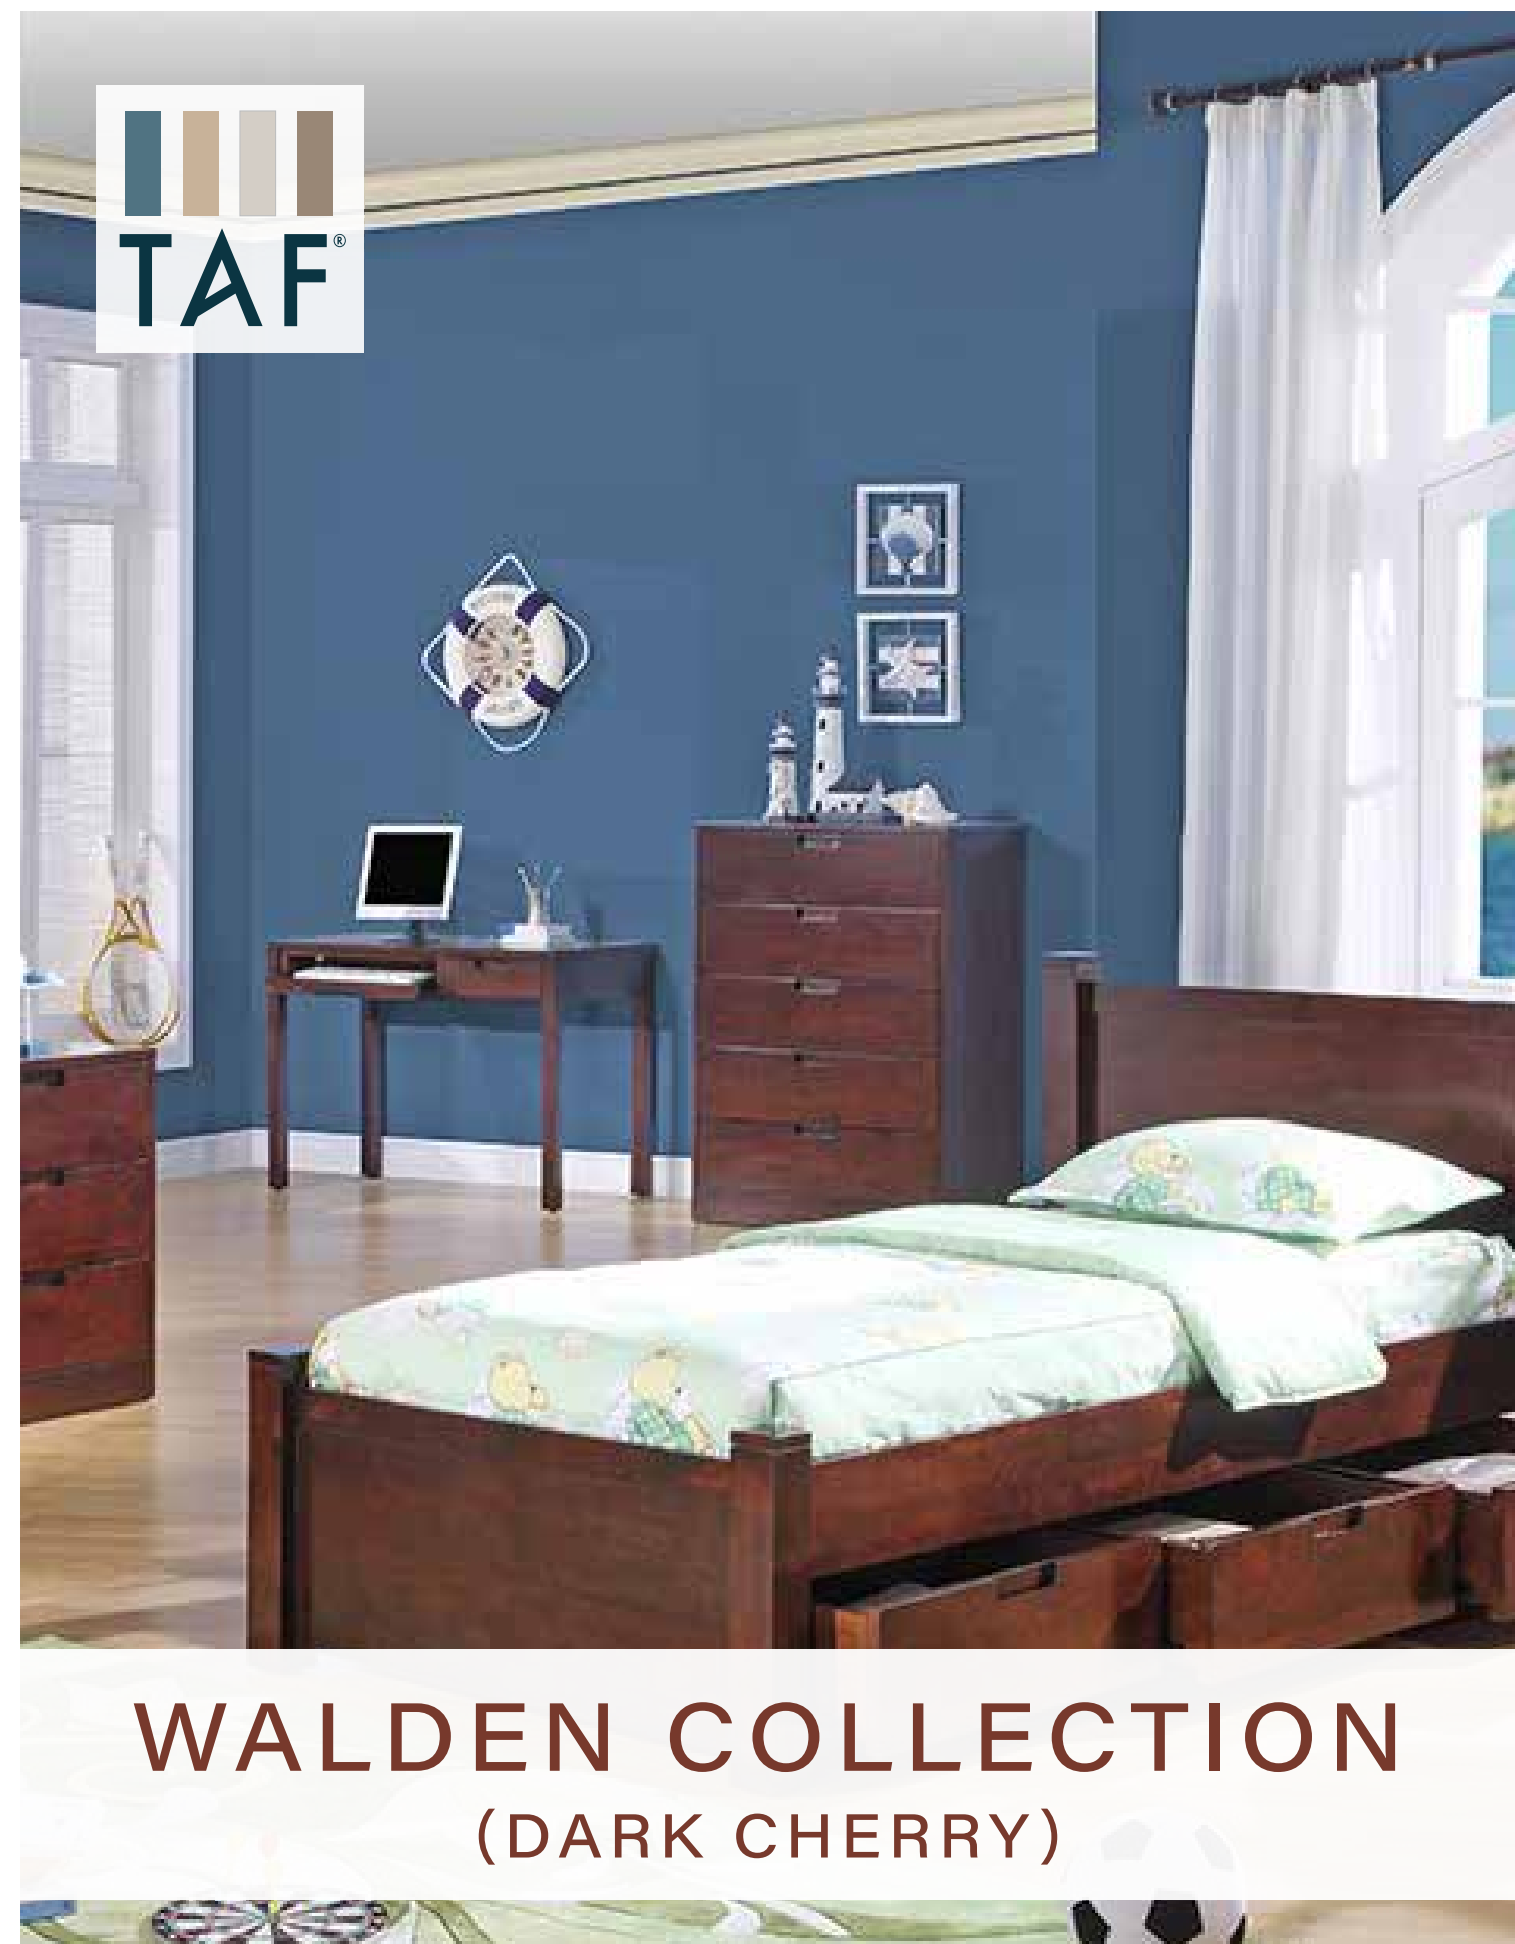

The 12 Slats + 4 Support Legs ensures that the mattress receives consistent and uniform support across its entire surface. This helps in distributing the weight evenly, preventing sagging or uneven wear of the mattress over time. The slatted structure also allows for increased ventilation and airflow around the mattress. This helps regulate temperature and moisture, reducing the likelihood of mold, mildew, or unpleasant odors.

Box Spring

Beds do not require a box spring offering advantage in cost effectiveness, modern aesthetics, flexibility in mattress options, and enhanced storage possibilities.

We do recommend adding a board to help distribute the weight evenly,
